

Interview tips

Getting an interview is the easy part of an application, but ensuring that you impress during the interview is purely down to you and your preparation. The more research you do the bigger head start you will have. Here are a few tips for your interview:

- Arrive on time, but not earlier than 10 minutes before your meeting
- Remember the interviewer's name
- Research the company for all the latest news and information
- Understand the job- read through the role description to understand the key requirements and competencies they are looking for
- Know your CV; expect to be quizzed on any aspect of your CV (and brush up on any technical skills as required)
- Give relevant examples when answering questions
- Prepare at least 3 relevant and intelligent questions that demonstrate your interest in the role and company; don't forget that the interview is also for you to find out more about them
- Enjoy the meeting and show enthusiasm!

What to avoid:

- Don't discuss money unless the interviewer brings this up
- Don't focus on the negatives of your previous roles
- Don't come across as too 'precious'- demanding an iMac to work on and a personal bike lock up may give the wrong impression
